**IL FASCINO CONTEMPORANEO
DELLA BOISERIE RENDE UNICO
OGNI AMBIENTE**

Come sinuose canne delicatamente mosse dal vento, le eleganti boiserie della nuova collezione CP Parquet donano alle pareti un emozionante ritmo geometrico e sorprendenti effetti di continuità. Giocando con scanalature, rientranze, forme e spessori, gli slanciati listelli danno vita ad un contemporaneo rivestimento decorativo tridimensionale dal forte valore espressivo. Il design minimal viene esaltato dalla modularità degli elementi che si ripetono nello spazio, creando un'affascinante sensazione di movimento e armonia.

**THE CONTEMPORARY CHARM OF BOISERIE
MAKES EACH ROOM UNIQUE**

Just like sinuous reeds swished delicately by the wind, the elegant boiserie of the new CP Parquet collection give the walls an exciting geometric rhythm and surprising effects of continuity. Playing with grooves, recesses, shapes and thicknesses, the slender strips create a contemporary three-dimensional decorative cladding with a bold expressive value. The minimal design is intensified by the modular design of the elements that are repeated in the room, creating a fascinating sensation of movement and harmony.
