UNA NUOVA ESPERIENZA CREATIVA

L'esclusivo progetto Experience 0.3 in gres laminato si arricchisce di due ulteriori proposte: 4 colori da pavimento in gres porcellanato realizzati con l'innovativa protezione antibatterica Microban cui vengono abbinate 7 tonalità da rivestimento in monocottura con finitura lucida.

L'unione di tre materiali distinti, tutti coordinabili tra loro con armonia e piacevolezza sensitiva, rende Experience un progetto completo e di grande versatilità ove colori, finiture e decorazioni consentono la realizzazione di molteplici soluzioni creative.

A NEW CREATIVE EXPERIENCE

The exclusive Experience 0.3 project made of laminated stoneware is enriched with two additional offers: 4 porcelain stoneware flooring colours made with the innovative Microban antibacterial protection, combined with 7 single-firing covering shades with glossy finish.

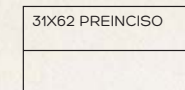

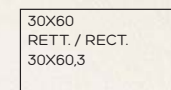

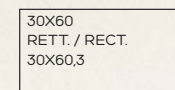

The combination of the three different materials, which can be harmoniously and pleasantly matched, makes Experience a complete and versatile project, where colours, finishes and decorations allows achieving several creative solutions.

EINE NEUE KREATIVE ERFAHRUNG

Das exklusive Projekt Experience 0.3 aus laminiertem Feinsteinzeug wird durch zwei weitere Optionen erweitert: 4 Farben für Fußböden aus Feinsteinzeug, die sich durch den innovativen antibakteriellen Schutz Microban auszeichnen. Dazu kommen 7 verschiedene Töne, die durch Einmalbrand mit glänzendem Finish erzielt werden.

Die Verbindung von drei verschiedenen Werkstoffen strahlt Harmonie aus, ist angenehm zu berühren und macht Experience zu einem vollständigen und vielseitigen Projekt, wobei Farben, Finishes und dekorative Eigenschaften die Umsetzung zahlreicher kreativer Lösungen erlauben.

UNE NOUVELLE EXPÉRIENCE CRÉATIVE

Exclusif, le projet en grès laminé Experience 0.3 s'enrichit de deux propositions supplémentaires: 4 coloris de carreaux en grès porcelainé réalisés avec l'innovante protection antibactérienne Microban auxquels s'assortissent 7 teintes de revêtement en monocuisson à la finition brillante.

La combinaison de trois matériaux distincts, tous coordonnables harmonieusement et avec un plaisir des sens absolu, fait d'Experience un projet complet et particulièrement versatile où coloris, finitions et décorations permettent de réaliser de nombreuses solutions créatives.

UNA NUEVA EXPERIENCIA CREATIVA

El exclusivo proyecto Experience 0.3 en gres laminado se enriquece con otras dos propuestas: 4 colores para suelo de gres porcelánico con la innovadora protección antibacteriana Microban, que se combinan con 7 tonalidades de revestimiento de monococción y acabado brillante.

Es **la unión de los tres materiales diferentes**, que se pueden coordinar entre ellos con armonía y amenidad, lo que hace de Experience un proyecto completo y versátil, donde los colores, los acabados y las decoraciones permiten realizar múltiples soluciones creativas.

MICROBAN PROTEZIONE ANTIBATTERICA SEMPRE ATTIVA CONTINUOUS ACTIVE ANTIBACTERIAL ACTION

PROTEZIONE INTEGRATA

La protezione Microban viene integrata direttamente nelle piastrelle durante il processo produttivo: quando i batteri entrano in contatto con la superficie trattata, la tecnologia Microban agisce bloccandone il metabolismo. In questo modo si interrompe il ciclo vitale dei batteri, che pertanto non sono più in grado di proliferare e sopravvivere.

BUILT-IN PROTECTION

The Microban protection is directly incorporated into the tiles during the production process: when bacteria comes into contact with the treated surface, the Microban technology reacts, blocking the metabolism of the bacteria. It therefore interrupts the life cycle of bacteria, which is no longer able to proliferate and survive.

PROTEZIONE CONTINUA

La tecnologia Microban funziona inoltre 24 ore su 24 garantendo di fatto una protezione continua giorno e notte, mantenendo le piastrelle più pulite fra una pulizia e l'altra.

CONTINUOUS PROTECTION

In addition, Microban technology is active 24 hours a day, guaranteeing continuous protection day and night, keeping tiles more hygienic in between cleans.

PROTEZIONE DUREVOLE

A differenza dei disinfettanti che rappresentano una soluzione istantanea, ma di breve durata, Microban garantisce una protezione durevole, esercitando un'azione continua contro i batteri durante l'intero ciclo di vita del prodotto.

DURABLE PROTECTION

Unlike disinfectants, which provide an instantaneous solution, but one that is not long-lasting, Microban guarantees a durable solution, providing continuous action against bacteria throughout the entire life cycle of the product.

PREVENZIONE DELLA FORMAZIONE DI BIOPELLECOLA

L'azione antibatterica continua di Microban previene la formazione di biopellicole. Le biopellicole, o biofilm, sono colonie di batteri che costituiscono una vera e propria copertura sulla superficie. Tali colonie possono danneggiare la superficie che rivestono, ad esempio le piastrelle. Una volta raggiunto un certo stadio, la biopellicola può deteriorare l'aspetto del prodotto. Oltre alle considerazioni estetiche, la formazione di biopellicole ostacola ulteriormente il mantenimento dell'igiene della superficie.

PREVENTION FROM BIOFILM FORMING

The continuous antibacterial action of Microban technology prevents the biofilm formation. Biofilms are colonies of bacteria which form a coating upon a surface. These colonies can be damaging to the surface that they inhabit, such as ceramic tiles and once the formation of the biofilm has reached a certain stage can mar the visual appearance of the product. In addition to aesthetic considerations, the build-up of a biofilm creates an additional challenge in maintaining surface hygiene.

PROTEZIONE GARANTITA

La tecnologia Microban è stata sottoposta a prove approfondite eseguite da laboratori indipendenti e gode di una lunga storia che ne garantisce la sicurezza d'uso. È registrata in Europa ai sensi della Direttiva sui Prodotti Biocidi per tutte le applicazioni in cui è utilizzata. Gli additivi Microban sono incorporati in beni di consumo, manufatti industriali e dispositivi medici prodotti da aziende leader in tutto il mondo ed oggi è a beneficio esclusivo di Ceramica Panaria e Panariagroup, da sempre all'avanguardia!

GUARANTEED PROTECTION

Microban technology has undergone rigorous trials conducted by independent laboratories and benefits from a long history that guarantees its safety of use. It is registered in Europe under the Biocidal Products Directive for all applications in which it is used. Microban builders are incorporated into consumer goods, industrial products and medical equipment manufactured by some of the world's leading companies. Today, this technology is available exclusively to Ceramica Panaria and Panariagroup: always at the cutting-edge!
