

A close-up photograph of a light-colored, textured ceramic tile floor. A dark metal leg of a chair or table is visible in the upper left corner, resting on the tiles. The lighting creates soft shadows across the surface of the tiles.

TERRAVIVA

Una materia antica e versatile, che racchiude in se la storia dell'uomo.
La Terra Cruda è un materiale da costruzione ottenuto lavorando la terra del suolo.
Miscelata con inerti e acqua, è da sempre stata utilizzata nell'antichità per costruire
abitazioni, utensili come ciotole o vasi e molto altro ancora.
Oggi questa materia rinasce a nuova vita con un'estetica fedele alla materia prima ma
aggiornata nei cromatismi, leggeri e contemporanei.

An ancient, versatile material, that holds within the history of man.

*Raw Earth is a construction material obtained by processing soil.
Mixed with inert materials and water, it has been used since ancient times to build houses,
utensils such as bowls and pots, and many other things besides. Today this material has
been given a new life, with an appearance that is true to the raw material but updated in
its light and contemporary colours.*

Materiale ottenuto anche con il recupero delle acque e dei materiali di scarto del ciclo produttivo.

Product obtained also through the recovery of water and waste from the production cycle.
Produkttypologien die unter anderem durch die Wiedergewinnung von Abwässern und Ausschussmaterial des Produktionszyklus erhalten werden.

Produit fabriqué aussi avec les eaux recyclées et les rebuts du cycle de production.

Изделие полученных при оборотном использовании воды и отбракованных в процессе производственного цикла материалов.
